Dubuque, Iowa—Morrison Bros. Co. has recently released an Air Actuated 3" Emergency Valve for the Tank Truck Sector. The Fig. 603 Emergency Valve is mounted on the underside of the tank on a petroleum tank truck or tanker.

The Emergency Valve is available in both flanged and victaulic versions. It has a field replaceable Bimba® Pneumatic Cylinder. It also has a manual override to allow fuel to be released in the event of an air system failure.

The new Air Actuated Emergency Valve can be viewed on the company website at www.morbros.com. It will also be shown at the Morrison Bros. Co. Tradeshow Booth at the 2005 NACS/PEI Show.

For additional information, please contact Jenny Hoffman, Marketing and Communications Coordinator, at 800.553.4840 extension 211.
