

SPRING IS... *sprouting!*

For a limited time only, purchase a 232 Nozzle and receive a **FREE** brass or aluminum spout (tube).

Features

- High flow design
- Used with pressure and/or gravity fill systems
- 100 PSI maximum pressure
- Replaceable hold-open notches
- Drag lugs protect and prolong nozzle life
- Dash pot technology for line shock reductions and ease of operation
- Teflon® surface coated dash pot and cap provides ultra smooth operation
- O-ring seal technology eliminates leak point at trigger stem
- Expanded handle cage (1/2") for more hand clearance during operation

In **May** and **June**, take advantage of this promotion. Our normal Morrison discounts and freight terms apply. No order quantity required for this special deal!

Special offer ends June 30, 2016... place your order TODAY!
