

# Fig. 305, 305XP & 305XPA Cap and Adaptor Specification Sheet

The Morrison Bros. Cap and Adaptor are used for access to leak detection on fuel storage tanks.

The cap has a center pull ring with toggle cam to fit adaptor groove. Tight seal and lockable. The Adaptor is profile machined for cam and groove fit on industry standard tight seal caps.

Each cap and adaptor comes with a one year warranty (effective for a year from the date of installation). The EVR Approved Cap and Adaptor are available in a 4" size.

4" Cap and Adaptor
