

# Model 449 CVR Test Measure & Funnel

SPECIFICATION SHEET

## Application

Provides an accurate standard of comparison for verifying the metered output of liquid dispensing equipment.

## Features and Details

- Equipped with a high resolution 3" neck with reducer
- 20 liter capacity
- Used with a mating vapor retention funnel to minimize vapor loss during testing

## Materials of Construction

- 300 series stainless steel

## Code Compliance

Measurement Canada recognized for retail fuel dispenser test equipment

Item Number	Description	Liters	Spout Material	Weight (lbs)
449CVRP200 1M	Test measure	20	N/A	20.0
449CVRF000 1F	Extra tall funnel	20	Copper	22.0
449CVRF020 1F	Funnel	20	Copper	14.0

### NOTE

This equipment has been evaluated by Measurement Canada for accuracy performance when used to perform inspection of gasoline or diesel related fuel dispensers. The evaluation of equipment includes repeatability, linearity and stability. This equipment has been evaluated and approved to be used in lieu of closed loop testing equipment to reduce vapor loss effects while testing gasoline systems.

### NOTE

The Funnel and Prover must be used together to meet Measurement Canada Requirements.
