

Morrison Bros. Co.

Fig. 519

Watertight Monitoring Well Manhole

519 Features

- Completely watertight.
- A single stainless steel bolt for limited access remains attached when the cover is removed.
- A full cast iron piece—void of seams, rivets and sheet metal.
- Brass spider holds cover tight to the seal eliminating the chance of the bolt rusting tight to an iron thread.
- The cover is machined to fit a replacement Buna-N seal without using glue.
- A black and white decal is permanently embedded on the iron lid surface.
- Brass label plate affixed to the rim to stamp the well number.
- Each manhole is individually boxed and supplied with a wrench.
- Top-of-the-line.
- Meets H-20 Load Requirements
- Completely made in the United States.

Sizes Available

9" (32 lbs.)

12" (76 lbs.)
