Attention: Morrison Distributor

Subject: Fig. 603 Tank Truck Emergency Valve - Replacement Parts

Our records indicate that your company has purchased our Fig. 603 Tank Truck Emergency valves. This letter is to inform you of some changes in the replacement parts we offer for these valves, specifically the plunger and the seal disc. In the past we sold Buna-N and Viton seal discs to replace ones that had become worn during service. Replacing these seal discs would require disassembly of the valve, disassembly of the plunger, removal of the old disc from the existing plunger, reassembly of the plunger with the new seal disc, then reassembly of the entire valve.

We now offer assembled plungers that come complete with all the plunger parts including a new seal disc. This convenient option eliminates the need for the repair technician to disassemble and reassemble the plunger and insures that the seal disc is properly assembled on the plunger. In addition to the convenience factor, we have also made a recent design change to the plunger itself. The newly designed plunger can be identified by a machined groove immediately below the disc nut. Please see the drawing below.

We are recommending that you replace any old style plungers, found during valve maintenance, with a new complete plunger. The part numbers and list prices for these new assembled plungers are:

- 603ALV0103 AP 2" Plunger complete with Buna \$53.38 List
- 603ALV0703 AP 2" Plunger complete with Viton \$58.84 List
- 603ALV0303 AP 3" Plunger complete with Buna \$62.55 List
- 603ALV0903 AP 3" Plunger complete with Viton \$68.01 List
- 603ALF0503 AP 4" Plunger complete with Buna \$69.01 List
- 603ALF1703 AP 4" Plunger complete with Viton \$74.47 List

We will continue to sell the replacement seal discs separately for those that may need to replace discs on new style plungers or for those that do not wish to upgrade plungers to the new design. The part numbers and list prices for the seal discs are:

- 603ALV0115 2D 2" and 3" Buna disc \$8.20 List
- 603ALV0715 2D 2" and 3" Viton disc \$35.00 List
- 603ALF0515 2D 4" Buna disc \$14.20 List
- 603ALF1715 2D 4" Viton disc \$40.00 List

Please call Morrison Bros. Co. customer service at (800) 553-4840 with questions regarding this letter. We can also be reached via email at [custserv@morbros.com](mailto:custserv@morbros.com).
