

# M 718 Liquid Level Gauge

NEW PRODUCT ANNOUNCEMENT

## Application

The Morrison 718 liquid level gauge is designed for measuring liquid level in an aboveground storage tank containing diesel, fuel oil, oil, and used (waste) oil. The gauge has also been approved for anti-freeze, brake fluid, windshield washer fluid, and automatic transmission fluid. The 718 mounts on top of the tank and is activated by a float connected to a cable.

## Features and Details

### 718

- 2" male NPT threads
- Float installs through a 2" female threaded opening or a schedule 40 riser\*
- Measurement readout in inches
- Two models accommodate tank depths up to 72" and 108"
- Easy float length adjustment (1" or 2" increments)
- Vapor space sealed to prevent lens fogging
- UV resistant measurement tape
- Approximately 12" of extra cable to accommodate installations with riser pipes

*\*Do not use with schedule 80 pipe*

### 718G

- Gallon models are designed for tanks of specific dimensions (see next page)

### 718M

- This model accommodates tank depths up to 275CM
- Easy float length adjustment (2.5CM or 5CM increments)

## Materials of Construction

- Body... cast aluminum
- Spring... 301 stainless steel
- Float... Polypropylene and aluminum
- Shaft bushing... stainless steel
- O-ring... FKM
- Cable... 30# braided microfilament
- Lens cover... Lexan
